

LOUIE'S BLUE MARTINI

When the light is on this is what's going on

DRINK HISTORY "THE MARGARITA"

Nothing goes better with summer than a frosty cold Margarita. So what's the Rita all about? The Margarita is as mysterious as the Martini when it comes to its origin. We do know that it has always been made with fine tequila and limes. According to one account, the most famous of tequila cocktails, the margarita, was first concocted in 1938 by Danny Herrera, bartender at the Rancho La Gloria bar in Tijuana for aspiring actress Marjorie King. The starlet claimed to be allergic to all liquors except tequila, so Herrera used it to create a new drink for Marjorie and gave it her Spanish name: Margarita. Another version holds that the margarita was invented on the Fourth of July 1942 in Tommy's Bar in Ciudad Juarez by Pancho Morales, who called it a "daisy," or margarita. Or perhaps you prefer the story that famed Dallas socialite Margarita Sames came up with the cocktail during a Christmas party at her vacation home in Acapulco, serving it to a group of friends that included Tommy Hilton, who introduced to his hotel chain. What ever story you want to believe just remember that the a properly made margarita never sees the inside of a blender.

PAST, PRESENT AND FUTURE

Good News, I'm sure all of you heard that Brent and Rene are staying that is so great we are all very happy and support their decision. If you do not know what I talking about then stop by and I am sure they will tell you. We survived the 4th, and we are looking forward to an exciting summer. I think we will be hanging out on the 14th so plan a visit, if the weather is good I will drag out the fire pit so we can hang outside. Looks like we have quite a few birthdays in August, including Paulette's. We will be holding a birthday bash for her on the 18th so clear your calendars and prep to party.

As always remember to drink responsibly and do not drink and drive. I guess I also need to mention to be careful when walking home.
